Reclaiming The Fire How Successful People Overcom

John Stoker

Reclaiming the Fire Steven Berglas, 2001-07-03 The definitive work on avoiding burnout, written by the psychologist who is the leading specialist on the issue. An illuminating and useful book for anyone coping with the pressures of work. In Reclaiming the Fire, Dr. Steven Berglas analyzes the rises and falls of corporate executives, middle managers, lawyers, entrepreneurs, and others as they struggle to handle the trappings of successful careers. How does one deal with encore anxiety, the monotony of having to use talents that are no longer psychologically rewarding? Why is it that our national obsession with wealth traps people in careers that often lead them to wonder, Is that all there is? And why do highly successful people often set themselves up for disastrous falls? Dr. Berglas answers all these questions and many more in this groundbreaking book by discussing real people whose careers have left them feeling pressured, burdened, and jaded. In his most progressive and striking contribution to the literature on career success, Dr. Berglas debunks the persistent myth that women suffer more stress and burnout than men. He disproves the common claim that women involved both in careers and in family life suffer from trying to have it all, and he demonstrates how the drive to form close interpersonal ties a drive that is intrinsic to women can actually prevent both men and women from experiencing burnout. In a related analysis of the mentoring process, Dr. Berglas shows why it is more important for careerists to build legacies for future generations (a process he terms generativity) than to become obsessed with their own personal success. He proves that the process not only benefits the student but provides the mentor with psychological satisfaction and even improved physical health. Reclaiming the Fire uses the working world not the psychiatric couch as a venue for understanding the psychological and emotional burdens of success. It is the first comprehensive account of how to balance self-esteem and ambition while maintaining challenge and stimulation throughout your career. Reclaiming the Fire provides insight into: *Why baby boomers are currently suffering an epidemic of career dissatisfaction *Why women are uniquely suited to cope with the pressures that cause men to suffer burnout, and what men can learn from them *How to escape golden handcuffs: the workaholic devotion to a job that is no longer emotionally satisfying *How to cope with anger that threatens to sabotage your career *How all professionals can identify the passions that will allow them to sustain and enjoy success throughout their lives

Stay Hungry & Kick Burnout in the Butt Steven Berglas, 2018-09-18 One of the foremost authorities on career guidance, Dr. Steven Berglas shows you how to find passion and renewed energy through your work. Most Americans today are
frustrated that no matter how much emotional currency they invest in the work they are trying to do well, each day leaves
them disappointed, depleted, and distressed. Dr. Berglas has spent more than 25 years studying this phenomenon while a
faculty member at Harvard Medical School's Department of Psychiatry, and as an Adjunct Professor at USC's Marshall
School of Business. He has devoted four decades to helping high-earning clients derive psychological rewards from work.
Berglas' clients range from CEOs and other C-Level executives, to professional athletes, lawyers, politicians, and artists. In
STAY HUNGRY & KICK BURNOUT IN THE BUTT, Berglas explores what causes people to suffer psychological burnout, and
how to prevent it. Specifically, Berglas walks you through a program that enables you to identify passions and harness the
energy (already within you) to fuel psychologically gratifying professional pursuits. Debunking common myths, Dr. Berglas
knows there's no one-size-fits-all solution to any psychological problem, which is why he will help you identify your core
passion and then offer clear, actionable advice on how to harness it to live a happier and more fulfilling life guided by
purpose.

In It for the Long Haul  Glenn E. Ludwig,2002-01-01  When pastors and congregations come together in ministry, they
generally do so with the hope that the relationship will be long-lasting and dynamic. The reality, however, is that long-term
pastorates are an increasingly rare phenomenon in congregations. While there are many reasons that most pastors can only
sustain their ministries in a parish for a relatively limited number of years, Glenn Ludwig argues that this does not have to be
the case if both pastors and congregations take deliberate steps toward an enduring friendship.

High Octane Women  Sherrie Bourg Carter, M.D.,2011-02-02  In this authoritative, well-researched book, full of helpful

From Engineer to Manager  B. Michael Aucoin,2002  If you are looking for a lively, down-to-earth experience in the
journey to innovative engineering management, this is definitely the book for you. The author's 20-plus year perspective
indicates that, while most engineers will spend the majority of their careers as managers, most are dissatisfied with the
transition. Much of this frustration is the result of lack of preparation and training. This book gives you a solid grounding in
the critical attitudes and principles needed for success.

The Encyclopedia of Stress and Stress-Related Diseases, Second Edition  Ada P. Kahn,2006  Presents information on
stresses in the environment, their causes, effects, and possible ways to minimize or eliminate them.

**Counting Our Losses** Darcy L. Harris, 2011-01-19 This text is a valuable resource for clinicians who work with clients dealing with non-death, nonfinite, and ambiguous losses in their lives. It explores adjustment to change, transition, and loss from the perspective of the latest thinking in bereavement theory and research. The specific and unique aspects of different types of loss are discussed, such as infertility, aging, chronic illnesses and degenerative conditions, divorce and separation, immigration, adoption, loss of beliefs, and loss of employment. Harris and the contributing authors consider these from an experiential perspective, rather than a developmental one, in order to focus on the key elements of each loss as it may be experienced at any point in the lifespan. Concepts related to adaptation and coping with loss, such as resilience, hardiness, meaning making and the assumptive world, transcendence, and post traumatic growth are considered as part of the integration of loss into everyday life experience.

This innovative volume tackles the complex question of entrepreneurial success, identifying the essential tools necessary for converting ideas into reality and offering concrete means for acquiring and strengthening those tools. Though entrepreneurial success or failure can be partly attributed to external considerations such as market fluctuations and competitor activity, Robert A. Baron argues that the individual entrepreneur is often crucial in determining whether an idea succeeds or fails. Using current, concrete data, the author demonstrates the critical importance of the entrepreneur’s skills, knowledge and other personal resources to the outcome of his or her entrepreneurial undertakings. Written in a clear and vibrant style, this groundbreaking book offers both a detailed breakdown of the personal attributes that foster entrepreneurial success as well as helpful suggestions for achieving and enhancing those same attributes in one’s own search for entrepreneurial excellence. Professors and students of entrepreneurship, as well as their peers in other innovation-based fields such as engineering and the sciences, will find this book an invaluable resource for both the study and practice of successful entrepreneurship.

*Mindful Leadership: Emotional Intelligence Collection (4 Books)*

This digital collection, curated by Harvard Business Review, offers four books on the topic of emotional intelligence, found by bestselling author Daniel Goleman to be twice as important as other competencies in determining outstanding leadership. In *Primal Leadership*, With a New Preface by the Authors, the authors show that great leaders excel not just through skill and smarts, but by connecting with others using emotional intelligence competencies like empathy and self-awareness. The best leaders are “resonant” leaders—individuals who manage their own and others’ emotions in ways that drive success. In *Resonant Leadership*, Richard Boyatzis and Annie McKee provide an indispensable guide to overcoming the vicious cycle of stress, sacrifice, and dissonance that afflicts many leaders and offer a field-tested framework for creating the resonance that fuels great leadership. And in *Becoming a Resonant Leader*, Annie McKee, Richard Boyatzis, and Frances Johnston share vivid, real-life stories illuminating how people can develop emotional intelligence, build resonance, and renew themselves. Finally, HBR’s 10 Must Read on Emotional Intelligence presents 10 articles by experts in the field of emotional intelligence, all of which will inspire you to monitor and channel your moods and emotions; make smart, empathetic people decisions; manage conflict and regulate emotions within your team; react to tough situations with resilience; better understand your strengths, weaknesses, needs, values, and goals; and develop emotional agility.
